... believes can keep the product going and make it successful.

"BUTTON, BUTTON..."

Several years ago, Manning & Napier Information Services (MNIS) created a new patent search product based on natural-language processing. The product, called MAPIT, was well received in some circles. Last year, in order to keep the product moving the product forward, MNIS did a deal with ipCapital Group, Inc. MAPIT, begun by MNIS, is now being marketed and maintained by ipCapital Group.

* The company may...

TURNING INFORMATION INTO INSIGHT

Overview

Manning & Napier Information Services (MNIS) is pioneering the new sciences of information analytics and data mining.

MNIS...

...competitive research offering by MNIS, and also can be licensed to organizations for internal use.

MAPIT (tm). A data mining tool for analyzing information contained in thousands of patents, MAPIT (tm) can analyze a set of patents, looking for similarities, differences and relationships. The research results are visually displayed, with, for example, clusters of similar patents highlighted. MAPIT (tm) allows corporate patent attorneys and competitive intelligence professionals to analyze competitive patents and the...

...monitor news and may use DR-LINK (tm) to ask retrospective questions.

Background & Key Executives

Manning & Napier Information Services' commercial roots begin with TextWise, a spin-off from Syracuse University that was...

...contracts to support its work.

In 1994, Weiner and Liddy founded MNIS with backing from Manning & Napier Advisors, a Rochester-based leading investment management firm with more than \$6 billion under management. In addition to its capital and co-development support, Manning & Napier Advisors use MNIS products to give its investment analysts and fund managers a competitive advantage... Dr. Liddy led to government research funding, and then to the launch of MNIS.

The technology, called MAPIT (TM), is the first system designed specifically for patent search and analysis, according to (MNIS), the developer. " MAPIT 's capabilities are essential in today's business environment where a company's worth is...

...said Michael Weiner, chief executive officer of MNIS, which is based in Rochester, N.Y.

MAPIT 's most important feature, according to David Snyder (dls@mnis.net), program manager for MAPIT technology, is its ability to cluster patent claims based on multiple levels of similarity -- a...

...that provides users with data visualizations and side-by-side analysis of conflicting patent claims. MAPIT can be used to benchmark competition by analyzing competitive and acquisition patent portfolios.

"This capability...

...strategic partners and merger candidates, and monitoring technology trends to make business forecasts," said Snyder.

" MAPIT 's advantage over other search engines is its deeper analysis.

MAPIT can analyze thousands of patents and claims simultaneously," said Weiner. He explained that users of this new tool will find searching much easier because of MAPIT 's ability to focus on patterns of occurrence of words and concept phrases.

"This technology...

...MNIS has amassed a large content collection focused on the computer, software and technology areas.

Manning & Napier Information Services is affiliated with Manning & Napier Advisors, a highly regarded investment advisory firm with more than \$6 billion in assets under management. Further information about MAPIT and DR-LINK can be obtained at website address www.mnis.net or by calling 716/454-0050.

MAPIT is the subject of worldwide patent trademark and copyright applications.

TEXT:

M2 PRESSWIRE-14 July 1997- MANNING & NAPIER : Patent data mining tool now at IBM site (C)1994-97 M2 COMMUNICATIONS LTD

RDATE:110797

* IBM links MAPIT in WWW patent database site --

<http://patent.womplex.ibm.com/respage.html>

MAPIT, a powerful patent data mining service developed by Manning & Napier Information Services (MNIS), is now being demonstrated through the World Wide Web, MNIS said this week.

MAPIT compares the contents of thousands of patents and automatically produces visualizations of the research results...
...knowledge management arts of information analytics, automated visualization, and data mining.

The MNIS technology behind MAPIT was first developed for government intelligence agencies, and later adapted for use in major corporations and patent offices around the world.

MAPIT is now available for full operational access through the Web, and is offered as an outsourced service by MNIS. It can also be installed on a corporation's network.

MAPIT applies advanced technology to patent research. Large patent portfolios can be analyzed by MAPIT to identify similarities, differences, and relationships. The research results can be visually displayed, highlighting clusters...

...by side displays of data, to support a detailed analysis of possible infringement.

The online MAPIT demonstration may be viewed through the patent research service offered on the web by IBM...

...html

"We're delighted that IBM has given us the opportunity to introduce people to MAPIT through their Web-based patent service. MAPIT is an important tool for competitive intelligence professionals, research managers, intellectual property managers, patent attorneys...

...uncover those secrets by digging through the sheer volume of

information. That is exactly what MAPIT does."

The IBM Web site is an electronic front door to a database of patents
...

...site contains over 2 million patents.

In addition to its sophisticated, natural language processing technology, MAPIT incorporates the same DB2-based technology that IBM uses on its site to store over 100 GB of patent data. MAPIT will be available as a value-added option to companies who purchase their own IBM
...

...a small group of specialists," said David Snyder, VP and chief technology officer of MNIS.

" MAPIT is making patent analysis available to non-specialist professionals, and to organizations that want to...

...planning. One new group who will benefit is the investment banking community, which can use MAPIT to more fully analyze the intellectual assets of potential acquisition or investment candidates."

Manning & Napier Information Services is associated with the Rochester, New York-based Manning & Napier Advisors, a privately-held, leading investment management firm with more than \$7 billion under management...

MANNING & NAPIER : Innovative technology tool unveiled

TEXT:

M2 PRESSWIRE-5 December 1996- MANNING & NAPIER : Innovative technology tool unveiled (C)1994-96 M2 COMMUNICATIONS LTD

... users from various business sectors at the On-line Information '96

conference.

The technology, called MAPIT , is the first system designed specifically for patent search and analysis, according to Manning & Napier Information Services (MNIS), the developer. " MAPIT 's capabilities are essential in today's business environment where a company's worth is...

...said Michael Weiner, chief executive officer of MNIS, which is based in Rochester, New York.

MAPIT 's most important feature, according to David Snyder (dls@mnis.net), program manager for MAPIT technology, is its ability, to cluster patent claims based on multiple levels of similarity -- a...

...that provides users with data visualizations and side-by-side analysis of conflicting patent claims. MAPIT can be used to benchmark competition by analysing competitive and acquisition patent portfolios.

"This capability...

...strategic partners and merger candidates, and monitoring technology trends to make business forecasts," said Snyder.

" MAPIT 's advantage over other search engines is its deeper analysis. MAPIT can analyse thousands of patents and claims simultaneously," said Weiner. He explained that users of this new tool will find searching much easier because of MAPIT 's ability to focus on patterns of occurrence of words and concept phrases. This technology...

...MNIS has amassed a large content collection focused on the computer, software, and technology areas.

Manning & Napier Information Services is affiliated with Manning & Napier Advisors, a highly regarded investment advisory firm with more than \$6 billion in assets under management. Further information about MAPIT and DR-LINK can be obtained at website address www.mnis.net or by calling, 716-454-0050.

MAPIT is the subject of worldwide patent trademark, and copyright applications.
